

3StarsNet

PARTNERSHIP PROGRAMS

PROGRAM 4 : NATIONAL POINT CODE

WHO WE ARE

3StarsNet is the biggest alternative VoIP operator in Belgium. Created in 1990, we are **fully BIPT Licensed**, with our **own redundant network infrastructure** and number ranges.

In 27 years, we have developed a wide range of partnerships. From the local IT consultant to the **main wholesale and white label partners**.

Every actor has its challenges and objectives. We have many various solutions for every level of partners. Our aim is to **help you grow your business**, while having a professional telecom partnership.

THE N.P.C.

PROGRAM

As we are continuously reinventing ourselves, we have brought into the market a **new way of doing business** with our high-level partners.

Thanks to a NPC program, you can truly become an **independent Belgian telecom operator**, while avoiding ton invest in time and money to pass SS7 and IP interconnect certificates.
